

End of Year Report | 2021

2021 has been another disrupted and challenging year for us all. Another year when the adaptability and resilience of Mac.Rob students and their teachers has been tested and remained strong. Another year when the Mac.Rob community has come together to support our students to succeed.

The Mac.Rob Foundation aims to support students to make the most of their educational opportunities, while at the school and beyond, so that they can achieve their goals and follow their dreams. Once again the Mac.Rob Foundation responded to the financial impact of the pandemic on students and their families by offering additional bursaries and scholarships in 2021. Due to the wonderful generosity of our donors, we were able to make grants to 15 very well-deserving students - a total of 5 scholarships and 10 bursaries.

While each application for our grants differs, they all come with a very personal and touching story and the common thread amongst them all is the grit, strength and determination to succeed in our students. What a great and true reflection of the school motto "*Potens Sui*" - a mastery of self. It is this determination which makes a Mac.Rob student stand out amongst all others. On behalf of the Foundation, I would like to once again thank our generous donors - without whom none of this could be possible.

I congratulate the graduating Class of 2021. It has not been the final two years of schooling that you had imagined or hoped for, but you should stand tall and be proud of all that you have achieved. I hope you look back, as I often do, with fondness for the years at Mac.Rob and one day be in a position like I am to give back to this wonderful school.

To all the other students, teachers and support staff - I wish you all a very relaxing and safe summer holiday and may 2022 be the year we can return to schooling as we know and love.

Lynne Jensen

Chair of The Mac.Rob Foundation
